

SERIOUS ABOUT PEST CONTROL.

Procter Pest-Stop Electronic Rat Killer

Product Code: PSERK

Product overview

State-of-the-art 'smart' electronics control this unique device. When a rat enters the electronic rat killer to reach the bait, it reaches a point where it touches both killing plates and completes an electrical circuit, which kills it in seconds. Because of the open design to suit rats rather than mice, the rat killer is intended for use by professional pest controllers and agricultural workers.
